

Declaration of the council of the „international alliance“

Gelsenkirchen, den 28.03.19

Full solidarity with the workers of Jasic (Jiashi)

Dear colleagues, dear friends!

The council of the „International Alliance“ stands firmly by your side and your demands for independent trade unions in the southern Chinese Special Economic Zone of Shenzhen. We are outraged that four of you and at least eleven supporters have been in custody for more than 100 days.

We send you combative, solidarity greetings from the meeting of our meeting on March 10, 2019 in Gelsenkirchen/Germany! On the photo you can also see representatives of the workers platform in our alliance, which has committed itself to international solidarity.

We see your fight as a very important. We will make it widely known to many others. The workers here have a song in their fights: "No one pushes us away!" Don't let yourself be divided and oppressed, stand firm together. We wish you a lot of strength and steadfastness, cohesion and support from your families, neighbours, friends, from the population and from other workforces.

Long live international solidarity!
